Ban on plastic bag regulation gets final passage in House

EVERYONE IS MOVING AWAY FROM PLASTIC

DON'T LOSE BUSINESS
BECAUSE YOU'RE
BEHIND THE TIMES

- Hawaii has already regulated plastic bags to protect coasts and beaches with many other states to follow
- More than half the U.S. states/local government have proposed plastic bag legislation
- 40 countries have banned plastic bags
- These are not new concerns and this trend will not reverse

TAKE A STEP FORWARD PROTECTING OUR ENVIRONMENT

Did you know that the average consumer throws away nearly 360 plastic bags per year?

And what's even worse is that each of those bags can take up to 1,000 years to decompose. Nearly every piece of plastic ever made still exists today! Just think of how much space that's taking up in our landfills? And if they don't make it there plastic bags usually find their way to our waterways and contribute to the death and harm of our marine wildlife.

**Choose to fight against harming our
environment with your business practices!
WE HAVE THE SOLUTION!**
